1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

Bulk buying due to avoid discount or to cut down buying cost can lead to huge inventory storage

Calculation of delivery order and warehouse and irregular supplier may lead to huge inventory storage

Over buying Inventory due to wrong forecasting

When Inventory acquisition is more as compare to consumption/sale

How Inventory control in retail stores

Solution:

Based on the inventory management analysis we can manage how much inventory is required for selling the product based on which they can calculate the profit and losses.

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

Step 3:

4

Prioritize
Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
